6. The rates mentioned above are exclusive of labour charges in connection with the cleaning of bushes, assistance in survey work, drawing of samples etc. These are to be charged for separately at actual if the labour is not provided by the client.
7. Any other ancillary work such as Chemical analysis, Mineralogical and other tests of Ore dressing investigation, if done in the IBM Laboratory / Pilot Plant / other recognized laboratories will be payable by the client separately as per the Schedule of charges fixed by the Government in this respect from time to time.
8. In case of long term investigations, (i.e. which has not been completed within one year from the date of receipt of advance), the above schedule will apply for the work done within one year from the date of receipt of advance and for the work done during each successive period of one year or part thereof, the schedule of charges as prevailing at the beginning of the period concerned will apply.

Mines will be categorised as follows:

- **A-Category** : A mine where the average employment exceeds 75 in workings below ground or 150 in all the mine or a mine where work is being carried on by a system of deep hole blasting and / or with the help of heavy machinery for drilling, excavation and transport of earth, stone, minerals etc.
- **B-Category** : Any other mine than that covered under A-Category Mine.

Explanation : The expression 'average employment' means the average per day of the total employment of the mine during the preceding quarter (obtained by dividing the number of working days excluding rest days and other non-working days).
