

23/2/18  
Inspection report cum Scrutiny comments on the Modified Mining Plan submitted by M/s NCL Industries Limited for Matapalli limestone mine over an extent of 46.356 hectare in Mattapalli village Mattampally Mandal, Nalgonda Distt. Andhra Pradesh.,

1. Noted that the mining Plan has already been approved for 2018-19 to 2022-23 on 21.12.2017. Modification cannot be approved for two months i.e., February and March 2018 keeping the proposal for the later period intact, as it effects the yearwise proposal. Therefore modification in the existing document can only be possible along with the document containing the approved proposal for 2018-19 and 2022-23.
2. In the approved document for 2018-19 to 2022-23, the production for the year 2018-19 was approved for 15 lac MT. If you require to produce additional tonnage in the balance period of 2017-18, the proposal be given for reducing the production figures of 2018-19 by the corresponding quantity.
3. Justification for the modification has been given partly on page 3 and on item 3.6. The reason for modification should be submitted quoting the rule provisions.
4. It has been seen that the proposal is given for increasing the production by 2.5 lacs MT in Feb and March 2018 together, whereas the production from Mattapalli Mines ranged between 46000 MT to 98000 T from Mar 17 to Dec 17 with an abrupt production figure of 170000 T in Jan 2018, which needs to be justified. Further, it has been noted that the average production from the mine is about 79000 T per month. Hence why the production of 250000 T is asked during the period Feb 18 to Mar 18 be clarified.
5. The remaining proposals in all chapters be shall be kept same as that in the approved document. The presentational corrections which are required owing to the proposals be reflected in all the concerned plates.
6. In item 3.4 status of compliance of violation need to be ensured and submitted.
7. If due to aforesaid changes, the data in other chapter or plates changes, they may please be corrected accordingly and also ensure the consistency of the data submitted in various chapters of the document.
