13(1)	The mining operations in the lease area are not carried out as per approved mining plan and following deviations are observed during inspection. Mining operations were recommenced on 16.12.2013 after NGT clearance on EC granted on 31.12.2008. a) It was proposed in Para 3(d) & plate 5 to drill 6 boreholes each from 2010-11 to 2013-14; however mining operations were suspended due to challenge of EC in NGT court from 24.09.2011 to 16.12.2013. It is observed during inspection of mine that proposal of 6 boreholes each during 2010-11, 2011-12 and 2013-14 covering 18 boreholes are not yet commenced. b) It was proposed in Para 7.0(b) to dump the waste generated material at a distance of 4kms over private land outside lease area in Ajsaon village. It is observed during inspection of mine that waste material is dumped towards north and north-east side of working pit within lease area.
