Scrutiny comments in respect of Modified Mining Plan with PMCP of Sadiwara limestone mine of M/s Shalimar Stone (4.519 hect.) in Anantnag district of J&K State submitted under Rule 17(3) of MCR 2016 & 23 of MCDR 2017

1. The modified mining plan is being submitted for the year 2017-18. Reason for enhancement of production has not been justified.
2. Certificate/ consent letter is not correct. Signature are not matching as per signature put on lease deed. Certificate from QP is without date.
3. Khasra plan is not enclosed.
4. Lease deed copy is incomplete and not legible, therefore the status of lessee as partnership firm is not ascertained.
5. Partnership deed is also not legible. Thus status is not clear. Further in case of partnership firm, details of managing partner and its authorization as managing partner is not given.
6. Name of the lessee is not matching with the details given in the mining plan.
7. Name in ID of one of the partner is not matching with that in lease deed.
8. On page 11 it is mentioned that chemical analysis report reveals that limestone of lease area is of cement grade. Contrary to this, the chemical analysis report indicates that it is of high grade limestone i.e. + 50% CaO. The same may be clarified. On page 19 it is mentioned that the entire area holds high grade limestone.
9. Copy of earlier approved SoM/MP may be enclosed.
10. Production is to be kept on lower side considering hardly 09 months are left in the proposal year 2017-18.
11. Excess production has been observed during the last five years. Deviation has not been given in this regard.
12. The details of lessee as per ML deed should be mentioned in Bank guarantee submitted against FA to IBM.
13. Representative photographs of the site are not enclosed.
14. Exploration carried out in the past has not been depicted on geological plan and sections.
15. The exploration shall be carried out as per rule 12 of MCDR 2017. Accordingly proposals should be incorporated for future exploration.
16. Reserves & resources is to be estimated considering the present excavation as well, as there is nil quantity shown in G-1 axis which need to be reviewed.
17. Previous approved R& R, depletion and updated R&R are not given.
18. End use/Consuming industries details are not given in the text.

Please note that all the corrections may be attended carefully before submitting three fair copies. It should be ensured that wherever rule MCDR 1988 is quoted, the latest rule in vogue i.e. MCDR 2017 should be given. All the corrections marked with red ball point on text and plates should be attended. Draft copy may also be returned along with fair copies.
