

Scrutiny Comments on Examination of Review of Mining Plan and Progressive Mine Closure Plan for Nanjankulam Regrouped Limestone Mine G.O 813 over an extent of 28.430 Ha in SF.No. 380, 381, 383, etc in Ramayanpatti village, Tirunelveli taluk , Tirunelveli district & Tamilnadu state. (Minecode 38TMN15006)

1. General: The document should be signed digitally by nominated owner and QP.
2. 1.1) Full postal address, phone, mobile number and email id are to be furnished in the address column.
3. 1.1.1) Lease deed execution date should be corrected
4. 1.1.1) The status of mining lease position as per per MMDR act 2015 amended may be furnished as annexure
5. In the ROMP document some of the column not properly filled / left blank the same may be filling with appropriate data.
6. 1.3.4.1 The details may be furnished properly
7. 1.3.5.1 All the table should be submitted in appropriate size for clear visibility
8. 2.1 Geology: The topography of the area is shown in "Undulating", may be corrected as "Plan" terrain
9. 2.1.3 & 2.1.4 Regional geology and local geology should be redrafted with proper dip angel as discussed during discussion and other relevant pages.
10. 2.2.1.13 Bulk density study report may be enclosed as annexure
11. 2.2.2.14 The year may be changed related to previous plan period
12. 2.2.4.4 The threshold value & cut off grade of the limestone may be furnished
13. 4.2.2.1 Number of benches proposed in the documents may be verified with reference to the year wise plan furnished in the table may be check and correct
14. 4.3.4 The quantity mentioned against proposed dump handling may be removed as no dump working proposed
15. 5.1 The write-up may be furnished appropriate font size, and it may also be mentioned that CSR activity will be carried out once mining operations are resumed and proposal may be incorporated under this chapter
16. Under chapter 9 Impact assessment all the items left blank which may be attended.  
**Annexure:**
17. Latest chemical analysis report may be enclosed  
**Planes and Sections**
18. All the plans and sections as required should be submitted along with the final copies of documents.
19. In all the plans two leases granted under the GO.No 813 & 526 working as single pit of Nanjankulam regrouped limestone mines. Hence the boundary of two leases to be clearly demarked with proper colour index.
20. The position of the ore body falling in the adjoining lease of the same Nanjankulam Regrouped mines may be shown in dotted line in geological plan.
21. Color coding for afforestation proposed in respective place may be given in distinct colour for better clarity
22. Lease plan authenticated by the State government should be enclosed.
