The figures furnished in the Annual Return are, therefore, inconsistent. PART-II-A – Capital Structure, Section 1 – Value of Fixed Assets: The net closing balance of fixed assets, including the individual values under Land, Building, and Plant & Machinery, reported for the year 2024-25 does not match with the corresponding opening balance reported for 2025-26. Further, the depreciation of fixed assets during the year reported under PART-IIA is different from the depreciation reported under PART-III – Consumption of Materials, whereas the depreciation figures under both the sections should be consistent. PART-VII – Cost of Production: The depreciation cost per ton reported under PART-VII does not correspond with the depreciation cost during the year reported under PART-IIA – Capital Structure and PART-III – Consumption of Materials. Lessee was informed by mail to correct the figures. Remark File: NIL
